

Background verification policy

Scope

All offers of employment at Affine are contingent to successful completion of background check which includes but not limited to criminal check, address, education and employment verification.

Background checks are conducted on all final candidates and on all employees as deemed necessary.

Outline:

Background checks can be initiated prior or post offer roll out and includes:

- Normal BGV: The standard verification process, initiated based on the regular timeline.
- Expedited BGV: The accelerated verification process, initiated based on the joiner's Date of Joining for quicker completion.

Types of Checks Conducted

Prior Employment Verification: Confirms applicant's employment with the listed companies, including dates of employment, position held and additional information available pertaining to performance rating, reason for departure and eligibility for rehire. This verification will be run on the past two employers or the previous five years, whichever comes first.

Employment History Check: Verifies the applicant's employment history using Provident Fund details, ensuring the accuracy of the employment timeline and the employer information.

Address Verification: Validates the applicant's current address.

Educational Verification: Confirms the applicant's claimed educational institution, including the years attended and the degree/diploma received.

Criminal History, Identity, Permanent Address, and Global Database Verification (need basis)

Procedure

- HR initiates BGV for the candidates prior to offer roll out or post joining in case of immediate joiners. Background verifications are conducted for all prospective employees, employees offered or hired for Full-Time roles and part-time contingent worker roles

Affine Analytics Private Limited

- Candidate completes the documentation as required by providing details and documents (as requested)
- Vendor partner (currently OnGrid) conducts verifications basis the details/documents uploaded
- In case of any insufficiencies, HR is the touchpoint to provide and help facilitate verification

Special Cases

- **Immediate Joiners Onboarding:**
In case of last minute onboarding, TA team should communicate whether to proceed with Onboarding or hold basis employment history check.
- **Verification Challenges:**
If we are unable to verify the candidate's employment after two attempts due to the lack of responsiveness from ex-employer, we can proceed with onboarding the candidate. In such cases, the candidate to provide documents such as Form 26AS and salary statements as proof of their employment history.
- **Overlap in Employment:**
If there is an overlap of 10-15 days between two organizations, we can proceed with onboarding, provided the candidate has a legitimate reason for this overlap. TA team to highlight any red flags.
Please note that these conditions may vary based on specific client requirements.

Results

The HR team is the custodian of Background checks. In cases where backgrounds are incomplete or unsuccessful verifications, appropriate actions are taken upon assessing potential risks and liabilities related to the job's requirements. Post careful assessment of such cases, the HR team informs and determines whether the offer is to be revoked or dropped. In case of unsuccessful verifications of an employee (onboarded already), employment would be terminated with immediate effect under dishonesty & misconduct grounds post informing the employee. In such cases,

- No severance or notice will be given and all the accesses of the employee will be disabled immediately
- Employee is required to handover the assets at the earliest

Affine reserves the right to modify this policy at any time without notice
